Unity and VR developer with 3+ years of full-time industry experience building cross-platform online multiplayer games, completing a B.S. in Computer Science at Cal Poly Pomona (GPA 3.81, May 2027). Sole developer of educational VR applications evaluated with a 35-student class; led a five-person team to a Best Gameplay award.

Skills

Languages: C#, Python, C++, C, GDScript

Game & XR: Unity, Godot, VR (Meta Quest), VR interaction design, multiplayer (Photon Engine, Firebase), simulation

AI & Tools: OpenAI API, ElevenLabs, Hume API; Git, Jira (Scrum), Android Studio, Google Play Developer Console, Ubuntu

Spoken: Korean (native), English (fluent)

Experience

SPICE Project, IMMERSYNC Lab, Cal Poly Pomona

Pomona, CA

Student Assistant, Unity Developer

Spring 2026-Present

- Sole programmer building educational VR applications in Unity for CS courses; planned 9 data-structures activities and built 7 (5 from the plan, 2 added; pointers, stacks, arrays, recursion) for Meta Quest headsets, plus a Unity WebGL version
- Built a cybersecurity network simulation where users configure stateless and stateful firewalls, send and inspect packets, and switch between physical and abstract views
- Evaluated in a 35-student data structures class: 83% agreed the activity helped them connect problems to array and algorithm concepts; 71% said VR made the problem structure easier to see

Wooriline

Goyang, South Korea

Unity Game Developer (Full-time)

Sep 2019-Dec 2022

- Developed and maintained cross-platform online multiplayer games in Unity, using Git for version control
- Integrated Facebook, Google and Firebase services for authentication, advertising and security
- Implemented the company's first 3D game systems; on a four-person team, also modified Android plugins and published games to Google Play

Lawverse

South Korea

Unity Simulation Developer (Freelance)

Jan-May 2022

- Built a proof-of-concept legal-services metaverse demo: a virtual city with NPCs (Unity navigation), Photon multiplayer, and real-time camera and screen sharing

Leadership and Projects

VGDA, CSU Long Beach

Long Beach, CA

Project Lead, Godot Developer

Fall 2024-Spring 2025

- Led a five-person team with Jira and Scrum; lead programmer on *Cryptobiosis*, a 3D horror game (mining, drill upgrades, monsters, day system). Won the **Best Gameplay award**

UC Berkeley AI Hackathon

Berkeley, CA

Software Engineer

Jun 2024

- Built an interactive storytelling AI with the OpenAI API and ElevenLabs narration; ranked **top 20 of 100 teams**

NSF Game Maker Awards

Long Beach, CA

Unity Mentor

Dec 2024-Jan 2025

- Mentored K-12 students with Unity tutorials, sample projects and project guidance for the competition

Education

California State Polytechnic University, Pomona

Pomona, CA

B.S. in Computer Science, GPA 3.81/4.00

Aug 2025-May 2027

President's List (Spring 2026); Dean's List (Fall 2025, Spring 2026). Transferred from CSU Long Beach (Fall 2023-Spring 2025).

Coursework: Artificial Intelligence, Machine Learning, Operating Systems, Systems Programming, Probability and Statistics.
